

STATE PROFILE

RYAN WHITE CARE ACT

COLORADO

Compiled using the 2004 Ryan White CARE Act Data Report

This report provides State-level information on the Ryan White CARE Act and the HIV/AIDS epidemic. The CARE Act funds primary care and support services for individuals living with HIV disease who lack health insurance and financial resources for their care. CARE Act programs reach more than 531,000 individuals each year. While ambulatory health care and support services are the primary focus of the legislation, training, technical assistance, and demonstration projects are also funded. The CARE Act was passed in 1990, reauthorized in 1996 and again in 2000. The FY 2006 appropriation was \$2.06 billion. For more information about the CARE Act, visit <http://hab.hrsa.gov>.

For additional State and national HIV/AIDS data, including new AIDS cases, AIDS deaths, HIV testing statistics and policies, funding for HIV prevention, and more, visit the Kaiser Family Foundation's Web site at <http://www.statehealthfacts.kff.org/>

To obtain free copies of this report, contact the HRSA Information Center at <http://www.ask.hrsa.gov>

Funding

CARE ACT FUNDING RECEIVED BY COLORADO GRANTEEES

Program	Fiscal Year 2005
Title I	\$4,099,187
Title II	\$2,020,401
AIDS Drug Assistance Program	\$6,300,681
Emerging Communities	\$0
Title III - Early Intervention Services	\$1,375,615
Title IV	\$590,251
Title IV- Youth	\$0
Community-based Dental Program	\$252,426
Dental Reimbursement Program	\$0
Minority AIDS Initiative [^]	\$989,650
Special Projects of National Significance	\$0
AIDS Education and Training Centers*	\$1,701,546
TOTAL	\$16,735,319

*States with no direct AIDS Education and Training Center (AETC) funding are covered by an AETC local performance site.

[^]Includes all Minority AIDS Initiative funding from Ryan White CARE Act programs.

Every year, recipients of CARE Act funds are required to report to the Health Resources and Services Administration's HIV/AIDS Bureau (HRSA/HAB) how those funds have been used to provide services to low-income and underserved individuals and families living with HIV/AIDS. The Ryan White CARE Act Data Report (CADR) is the annual reporting instrument that must be completed by agencies and organizations receiving funds to describe: 1) characteristics of their organization; 2) the number and characteristics of clients they served; 3) the types of services provided; and 4) the number of clients receiving these services and the number of client visits by type of service. Agencies/organizations that provide counseling and testing services report on the number of individuals receiving these services. In addition, providers of ambulatory/outpatient medical care provide some information on the outcomes of their services. The following information was compiled from the 2004 CADR.

Provider Characteristics

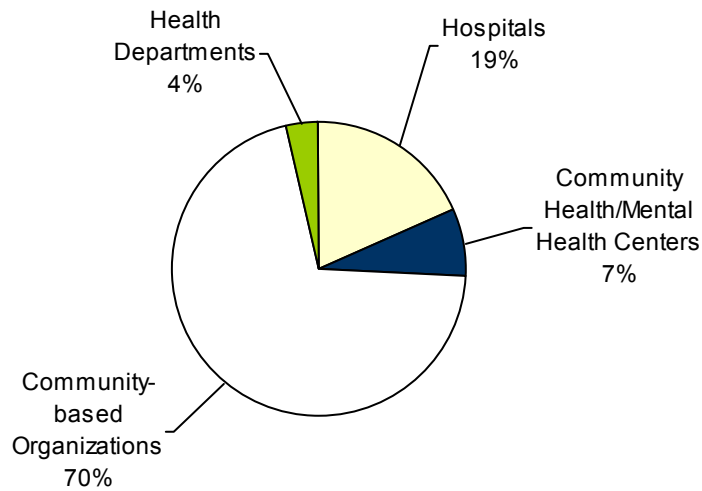

27 service organizations in Colorado received funding from one or more CARE Act programs to provide services in 2004.

NUMBER OF ORGANIZATIONS RECEIVING CARE ACT FUNDING BY PROGRAM^{5*}

Program	Number of Provider Organizations
Title I	19
Title II	6
Title III	4
Title IV	1
Title IV—Youth	0

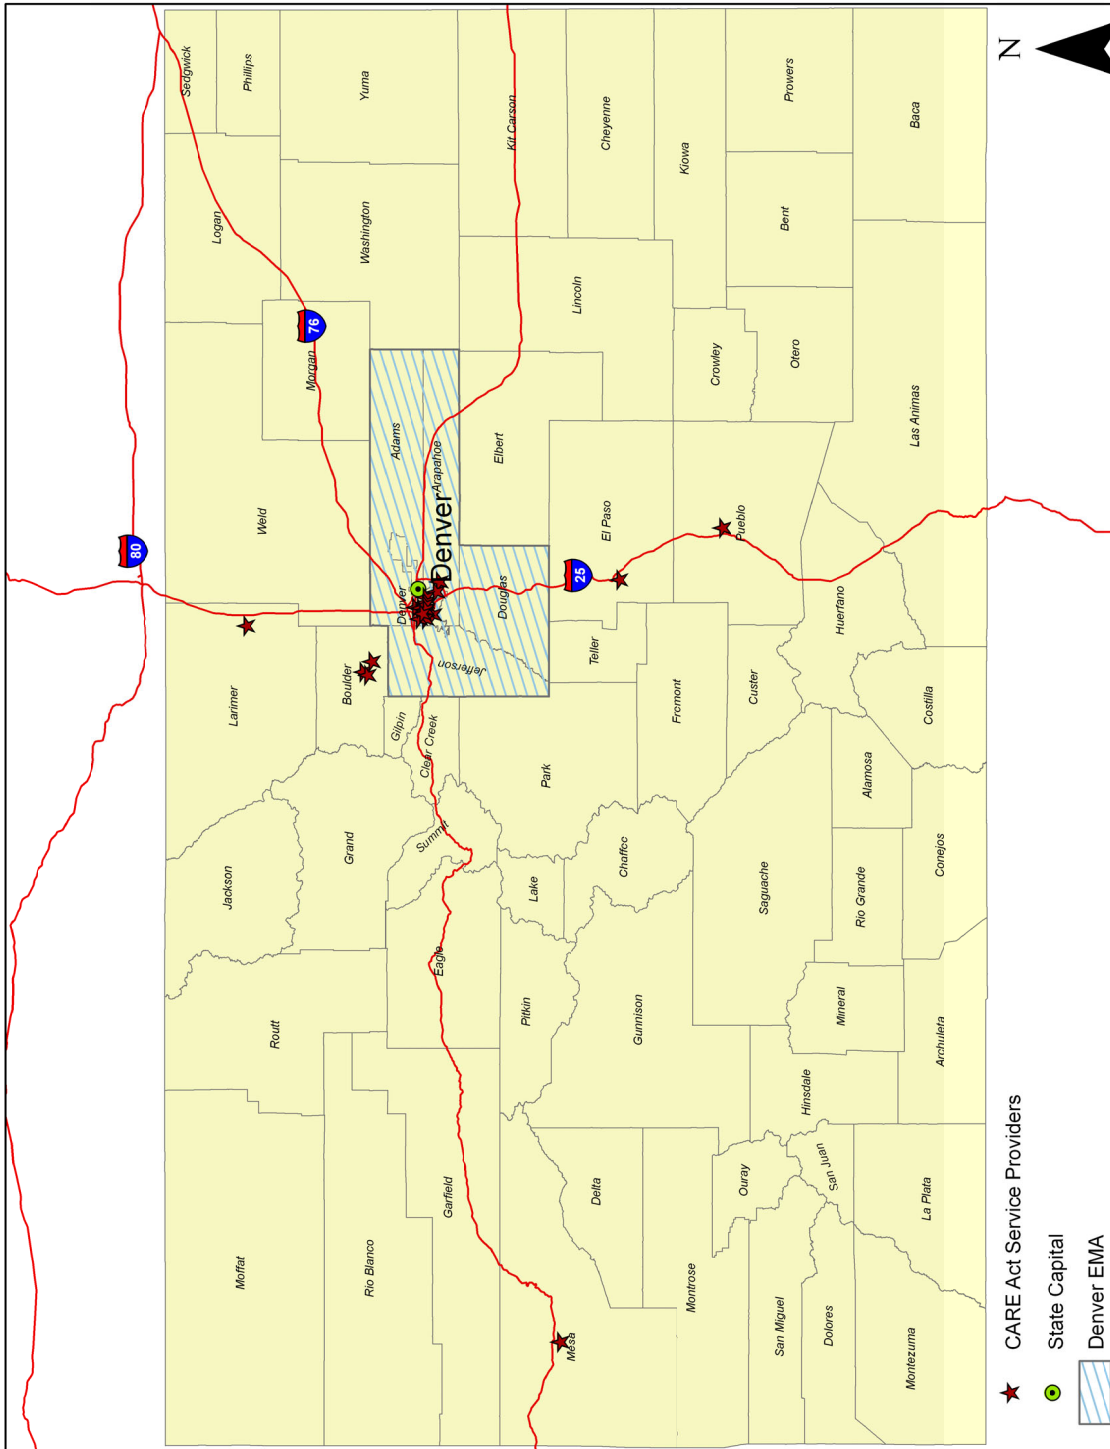

*11% of provider organizations received funding from two or more CARE Act programs.

TYPES OF ORGANIZATIONS PROVIDING CARE ACT SERVICES, 2004⁵

(n = 27)

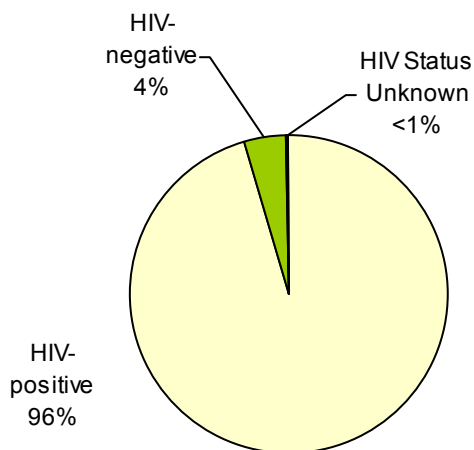

LOCATION OF 2004 CARE ACT SERVICE PROVIDERS⁵

Characteristics of Clients Served

In 2004, 10,678 duplicated clients were served by CARE Act programs in Colorado.

NUMBER OF DUPLICATED CLIENTS SERVED BY HIV STATUS, 2004⁵

NOTE: Percentages may not sum to 100 percent due to rounding error.
(n = 10,678)

CLIENT GENDER BY HIV STATUS^{5*}

Gender	HIV-Positive		HIV-Affected [^]		Total	
	N	%	N	%	N	%
Male	8,268	81%	261	55%	8,529	80%
Female	1,896	19%	213	45%	2,109	20%
Transgender	40	<1%	**	--	40	<1%
Total	10,204		474		10,678	

[^]An affected client is a family member or partner of an infected client who received case management or other supportive services during the calendar year and is reported as HIV-negative or HIV status unknown.

*Gender was unknown or unreported for 0 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

CLIENT ETHNICITY BY HIV STATUS^{5*}

Ethnicity	HIV-Positive		HIV-Affected [^]		Total	
	N	%	N	%	N	%
Hispanic/Latino	2,220	22%	153	33%	2,373	22%
Non-Hispanic/Latino	7,984	78%	316	67%	8,300	78%
Total	10,204		469		10,673	

[^]An affected client is a family member or partner of an infected client who received case management or other supportive services during the calendar year and is reported as HIV-negative or HIV status unknown.

*Ethnicity was unknown or unreported for 5 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

CLIENT RACE BY HIV STATUS^{5*}

Race	HIV-Positive		HIV-Affected [^]		Total	
	N	%	N	%	N	%
White	5,924	72%	261	63%	6,185	72%
African American	1,742	21%	125	30%	1,867	22%
Asian	22	<1%	**	--	22	<1%
Native Hawaiian/Pacific Islander	**	--	**	--	--	--
American Indian/Alaska Native	144	2%	11	3%	155	2%
Multi-racial	403	5%	17	4%	420	5%
Total	8,235		414		8,649	

[^]An affected client is a family member or partner of an infected client who received case management or other supportive services during the calendar year and is reported as HIV-negative or HIV status unknown.

*Race was unknown or unreported for 2,025 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Some Hispanic/Latino clients may not have identified with a particular race.

Percentages may not sum to 100 percent due to rounding error.

CLIENT AGE BY HIV STATUS^{5*}

Age	HIV-Positive		HIV-Affected [^]		Total	
	N	%	N	%	N	%
Under 2 years	28	<1%	47	10%	75	1%
2 - 12 years	105	1%	172	37%	277	3%
13 - 24 years	298	3%	107	23%	405	4%
25 - 44 years	5,868	58%	72	15%	5,940	56%
45 - 64 years	3,776	37%	69	15%	3,845	36%
65 years and older	128	1%	**	--	128	1%
Total	10,203		467		10,670	

[^]An affected client is a family member or partner of an infected client who received case management or other supportive services during the calendar year and is reported as HIV-negative or HIV status unknown.

*Age was unknown or unreported for 4 clients.

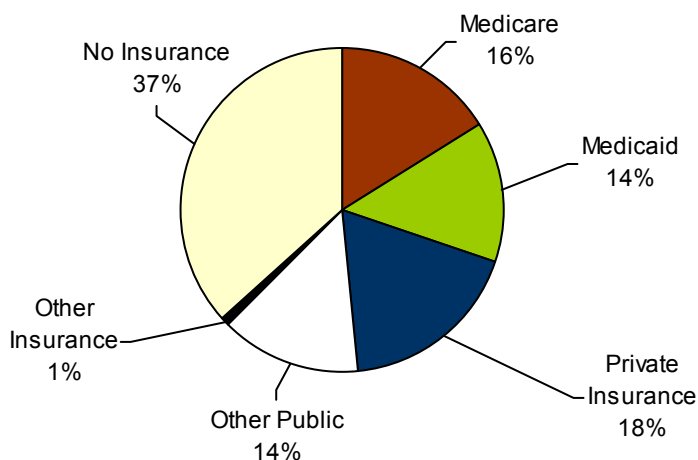

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

HOUSEHOLD INCOME OF CARE ACT CLIENTS, 2004⁵

In 2004, 91% of the clients served had household incomes equal to or below the Federal Poverty Level (FPL). An additional 6% were between 101% and 200% of the FPL.

INSURANCE STATUS OF HIV-POSITIVE CLIENTS, 2004^{5*}

*Insurance status was unknown or unreported for 414 clients.

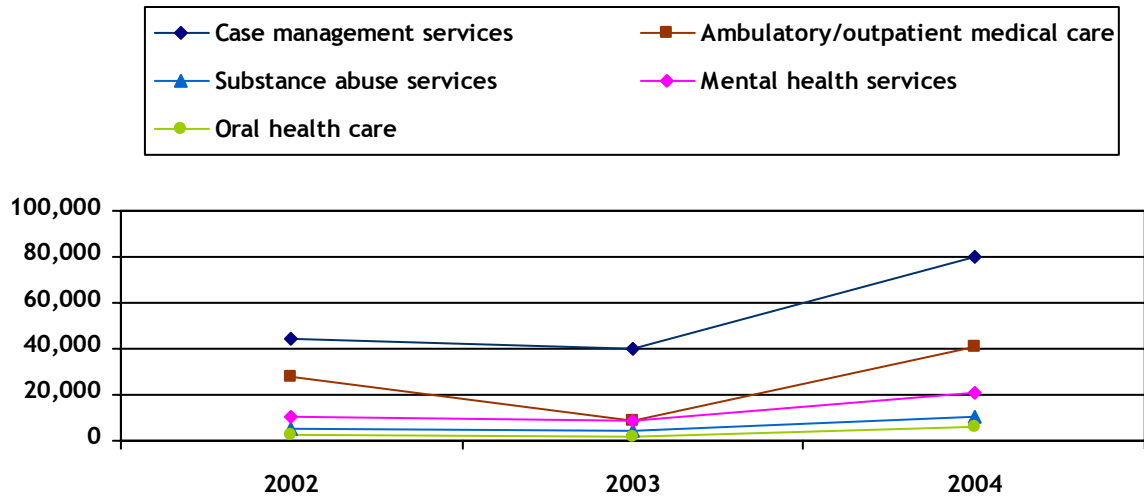

(n = 9,790)

Services Utilization**NUMBER OF SERVICE AGENCIES/ORGANIZATIONS BY SERVICE PROVIDED^{5*}**

Service Category	Number of Service Providers
Ambulatory/outpatient medical care	7
Mental health services	11
Oral health care	8
Substance abuse services - outpatient	8

Early intervention services for Title I and Title II	--
Emergency financial assistance	7
Food bank/home-delivered meals	9
Health education/risk reduction	8
Housing services	6
Legal services	--
Nutritional counseling	5
Outreach services	2
Permanency planning	2
Psychosocial support services	3
Referral for health care/supportive services	7
Referral to clinical research	4
Residential or in-home hospice	--
Transportation services	12
Treatment adherence counseling	6
Other services	7

*Service agencies/organizations may receive CARE Act funding to provide multiple services to clients.

NUMBER OF VISITS FOR KEY SERVICES⁵

AIDS Drug Assistance Program (ADAP)

In 2004, 1,392 clients were served by ADAP in Colorado. A total of 571 new clients were served.

ADAP CLIENTS BY GENDER^{5*}

Gender	ADAP Clients	
	N	%
Male	1,202	87%
Female	184	13%
Transgender	**	--
Total	1,386	

*Gender was unknown or unreported for 0 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

ADAP CLIENTS BY ETHNICITY^{5*}

Ethnicity	ADAP Clients	
	N	%
Hispanic/Latino	340	26%
Non-Hispanic/Latino	952	74%
Total	1,292	

*Ethnicity was unknown or unreported for 100 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

ADAP CLIENTS BY RACE^{5*}

Race	ADAP Clients	
	N	%
White	852	79%
African American	193	18%
Asian	**	--
Native Hawaiian/Pacific Islander	**	--
American Indian/Alaska Native	16	1%
Multi-racial	21	2%
Total	1,082	

*Race was unknown or unreported for 303 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Some Hispanic/Latino clients may not have identified with a particular race.

Percentages may not sum to 100 percent due to rounding error.

ADAP CLIENTS BY AGE^{5*}

Age	ADAP Clients	
	N	%
Under 2 years	**	--
2 - 12 years	**	--
13 - 24 years	23	2%
25 - 44 years	799	58%
45 - 64 years	550	40%
65 years and older	16	1%
Total	1,388	

* Age was unknown or unreported for 0 clients.

**Less than 10 clients reported. For confidentiality, cells with <10 clients are not included in the column, row, and percentage.

NOTE: Percentages may not sum to 100 percent due to rounding error.

NOTE: Ryan White CARE Act grantees have numerous providers under subcontract and each of these providers completes a CADR. While data are unduplicated at the provider level, an individual client may receive services from multiple providers. Thus, any summary of the total number of clients served and their demographic characteristics at the grantee or national level may result in duplicated client counts.
