# Portland, OR TGA – Set up

# Constructing an Implementation Plan for CW 6

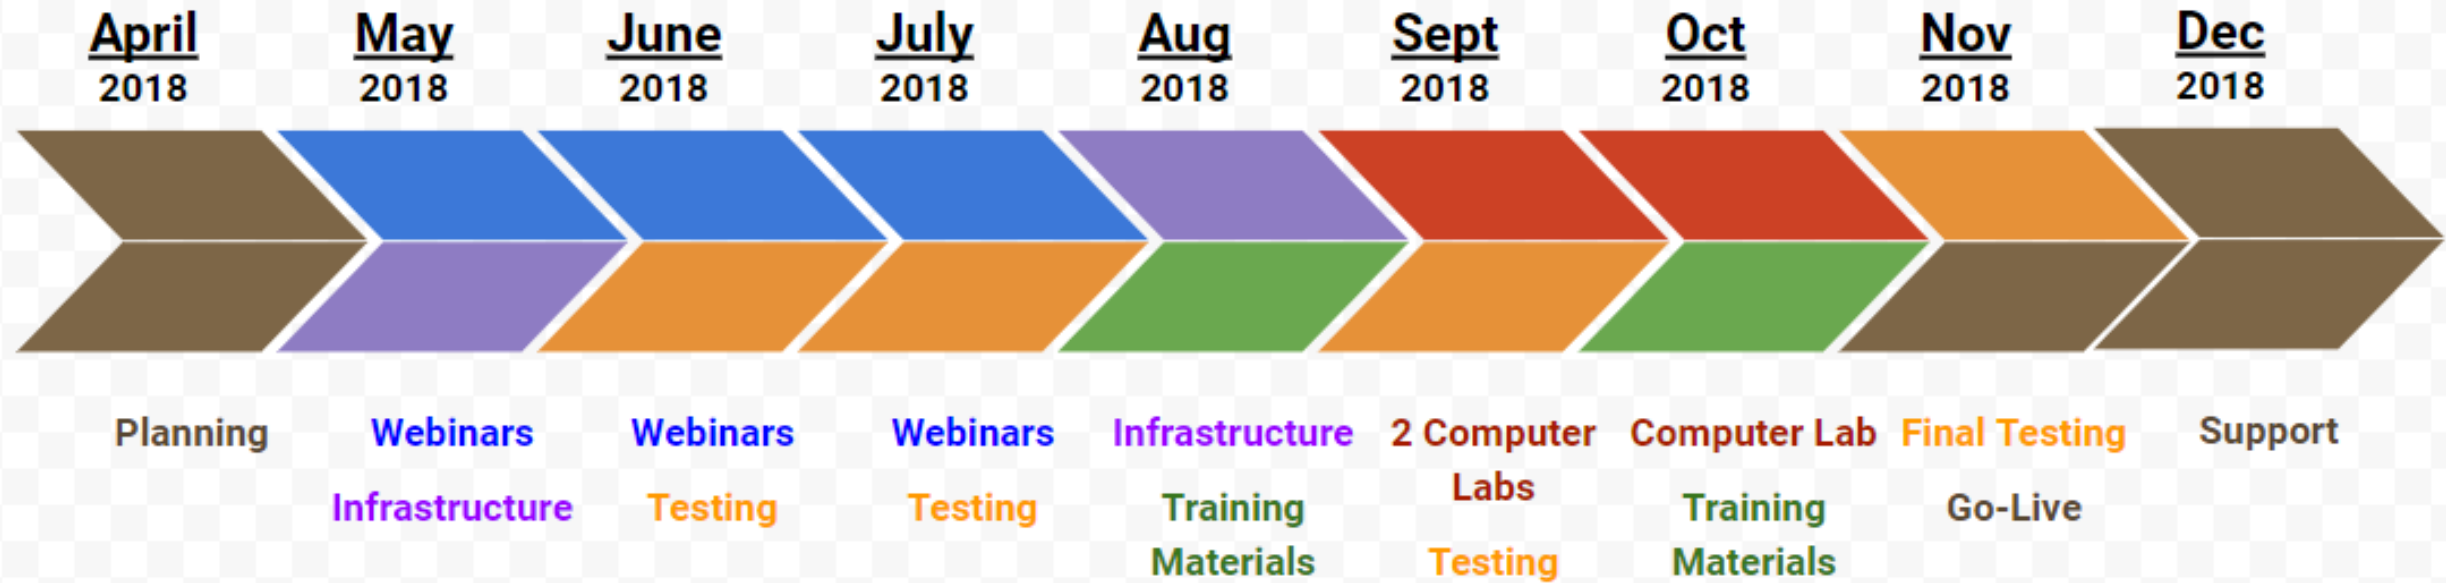

## Pro

- Accessible by Internet
  - Any web browser
  - Adjust size of screens
- Faster
- Can have several client records open at once (like a medical record)
- Manuals embedded in web page
- No special software updates
- More users can use system at once
- Easy to navigate
  - All web pages have the same format

## Con

- Some functionality takes more sub-menus to click through to complete
- No modules where many functions can be performed at once
- Will take more time to learn

## Timeline for Implementation Plan

# Thank You
